EIGHT OPERATIONAL CAPABILITIES OPERATING AS ONE FOR LONG-TERM OPERATIONAL SUCCESS.

EVERYTHING YOU NEED FOR LONG-TERM OPERATIONAL VALUE.

COMPREHENSIVE INDUSTRIAL CONTRACTOR FOR CAPITAL, MAINTENANCE, AND

TURNAROUND TO PETROCHEMICAL AND CHEMICAL REFINERIES: Over 1500 safety-driven people providing field services such as Construction, Structural Steel Erection, Project Management, Exchangers/Fin Fans, Vessels, Piping, Boilers/Heaters, Rotating Equipment, Garage, Grounds, etc.

END-TO-END SPECIALTY CONTRACTOR SUPPORTING CAPITAL, MAINTENANCE, AND

TURNAROUNDS TO THE INDUSTRIAL AND BUSINESS SECTORS: Integrated, cohesive, and safe group of field services with over 150 years of industry experience in Scaffolding, Coatings, Insulation, Abatement, and Fireproofing.

FULL-SERVICE SPECIALTY SERVICES PROVIDER SUPPORTING CAPITAL, MAINTENANCE, AND

TURNAROUNDS: Full-service, integrated, and safety-minded personnel, craft, and services for Mechanical, NDE/Inspection, Leak Repair, and Heat Treating.

INDUSTRIAL DRY SUCTION EXCAVATION SERVICES: Non-destructive, clean, environmentally-friendly, and safe advanced air suction excavation for soil-to-air interfaces, electrical and utility line locating, exposure of buried utilities and piping, pipe rack excavation support, potholing and trenching excavation, and much more. Ideal for safely exposing buried infrastructures.

COMPLETE SPECIALTY EXCHANGER AND VESSEL MANUFACTURER: Design, fabrication, machining, testing, re-tubing, and 24/7 repairs within a state-of-the-art >50,000sq.ft. facility, all built upon a foundation of rigorous planning, sequencing, and quality controls that drive production/productivity and eliminate delays to keep projects on-budget and on-schedule.

FULL-SERVICE PIPE FABRICATOR AND MANUFACTURER: Engineering and fabrication of ASME pressure vessels (per Section VIII, Division 1) using all types of carbon steels, chromes, stainless, duplex, and nickel alloys built by experienced and highly trained personnel and state-of-the-art equipment which ensures safe and quality products, within customer deadlines, including rapid-response for turnarounds or due to operational disruptions. Certifications: ASME U, S Stamps, and NBIC R Stamp.

SKILLED, PROVEN STRUCTURAL STEEL FABRICATOR: Single source for structural steel and sheet metal fabrication and construction within a fully modernized shop which yields high-quality, accurate, and fast turnaround product for projects of any size and scope. 24hr fabrication services include planning, sequencing, and quality controls to eliminate delay and keep your projects on-schedule.

THE FAST, FLEXIBLE, AND HIGH-QUALITY BLIND SOURCE: Providing any size, class, or material grade of blinds or flanges, built through precision machining and fabrication services, for line isolation and hydrostatic testing. A “ready-to-go” inventory of over 70,000 rental blinds, ranging from 1/2” to 72” and 150# to 2500# class.

ALIGNED AND COORDINATED TO WORK TOGETHER.
